

let anyone look down on you because you are young but set an example for the believers in speech; in conduct; in love; in faith and in purity.
(1 Timothy 4:12)

Subject: Science

Year group: 1 Term: Autumn 2

**Title: Penguins, Possums and Pigs -
Biology**

What should I know?

- The features of living things and how they grow and change
- How to care for and show concern for living things
- How living things can have similarities and differences
- That patterns can be found when studying living things

Facts I will learn ...

- The different species of animals
- Whether animals are carnivores, herbivores or omnivores
- The features and structure of common animals
- Similarities and differences between common animals

Key questions ...

- How do we know they are animals?
- What makes an animal an animal? What features do animals have?
- What things are similar between two different animals?
- All animals are the same. True or false?
- How do animals move?
- What if animals couldn't move around?

☐ TRUE
☐ FALSE

Key Skills...

- Identifying animals and their features
- Grouping and classifying according to features/habitats/feeding habits
- Comparing and contrasting at first hand or via photos
- Labelling pictures correctly

Experiences that school may provide:

- A visit to a zoo/farm
- The opportunity to pet/hold/feed a live animal

Key vocab and Definition

Mammal	An animal that breathes air, has a backbone and grows hair. An animal that feeds on plants.
Bird	An animal which has wings, feathers and a beak.
Fish	A limbless animal which has fins and lives in water.
Amphibian	A cold-blooded animal such as a frog.
