

let anyone look down on you because you are young but set an example for the believers in speech; in conduct; in love; in faith and in purity.
(1 Timothy 4:12)

Subject: Science	Year group: 2 Term: Spring 2	Title: The Farm Shop - Biology							
What should I know? • The features of living things and how they grow, change and decay • How to care for and show concern for living things • How living things can have similarities and differences • That patterns can be found when studying living things • The name of a variety of common wild and garden plants, including certain trees • How to identify and describe the structure of plants and trees	Facts I will learn ... • To describe how bulbs and seeds grow into mature plants • Why plants need water, light and a suitable temperature to grow and stay healthy and how they receive these things 	Key questions ... • How do plants grow? • Where do seeds come from (i.e. inside a fruit)? • Which part of the plant grows from the seed first? • How do we keep plants healthy? • What do plants need to grow healthily? • What can we ask a garden expert? 							
Key Skills... • Observing and describing seeds and bulbs growing and changing • Explaining why plants need certain things to survive • Explaining how plants receive light and water	Experiences that school may provide: • Planting a seed to observe growth • A visit to a garden centre/nursery • Fruit observation and tasting • P 	Key vocab and definition <table><tr><td>Plant</td><td>A living thing that uses the sunlight to create food.</td></tr><tr><td>Seedling</td><td>A young plant raised from a seed.</td></tr><tr><td>Tree</td><td>A woody plant,</td></tr></table>		Plant	A living thing that uses the sunlight to create food.	Seedling	A young plant raised from a seed.	Tree	A woody plant,
Plant	A living thing that uses the sunlight to create food.								
Seedling	A young plant raised from a seed.								
Tree	A woody plant,								

			typically having a single stem or trunk.	
		Leaf	The usually flat, green part that grows from the stem of a plant.	
		Flower	The seed-bearing part of a plant.	
		Root	The part of the plant which attaches it to the ground.	
		Bulb	The underground organ of a plant.	
		Stem	The main body of a plant or shrub	
		Healthy	In good physical condition.	
Web links https://www.bbc.co.uk/bitesize/subjects/z6svr82 (Plants area) https://www.topmarks.co.uk/Interactive.aspx?cat=64	Experiences that could be provided at home... • Visiting an allotment • Eating something you have grown
