

OUR ONLINE SAFETY CURRICULUM

At St. Paul's we recognise that technology has an ever increasing role in society today and therefore in the lives of our pupils. We not only recognise the need for children to develop their skills in using a range of devices, but also to remain safe when using them both at home and in school.

With this in mind we have developed our curriculum to have a heavy focus on online safety. Through the use of learning platforms such as Project Evolve and Pol-Ed, we ensure that our pupils have the knowledge and skills to become responsible online citizens. To explore our curriculum documents, please follow the QR codes below.

SUPPORTING FAMILIES

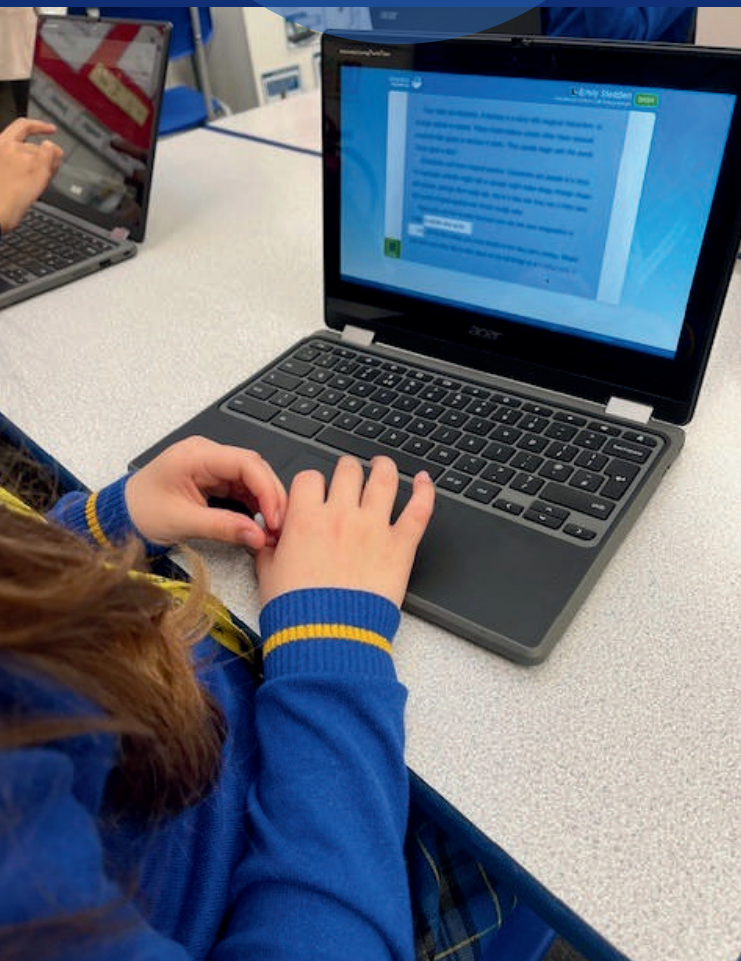

The wider St. Paul's family includes our parents and carers whom we support in developing their own knowledge and skills about Online Safety in a variety of ways. These include:

- Weekly Online Safety tips in our newsletter
- Documents and links on our website or ClassDojo page
- The opportunity to attend parent workshops

ONLINE SAFEGUARDING

The online world can be a tricky place to navigate. Here at St. Paul's through our policies and classroom practise, we work hard to equip our children for the challenges of life in a digital world and protect them from harmful content.

WHAT DOES ONLINE SAFEGUARDING LOOK LIKE AT ST. PAUL'S?

FILTERING

Our filtering provider 'Netsweeper' ensures that our pupils are blocked from accessing content under the following categories:

- Child Sexual Abuse Material
- Terrorism Content
- Adult Content
- Offensive Language

MONITORING

Online access is monitored both physically, by staff, during lessons and through daily digital reports. Key staff members receive detailed, daily reports regarded as 'Suspicious Searches' that have been blocked by the filtering system and a weekly 'Prevent' report.

REPORTING

Suspicious searches are logged and recorded by the Online Safeguarding Team.

Every device in school is logged on our 'School Device Log', including the user, location and IP Address. This ensures that any monitoring reports are investigated swiftly and any necessary actions carried out. These could include discussions with the child/adult in question, additional lesson content with groups, discussions with parents or referral to the Pupil Family Support Workers.
